Online Safety During COVID-19

Scammers are leveraging the COVID-19 pandemic to steal money, personal information, or both. Protect yourself and do your research before clicking on links, donating to a charity online or through social media, or giving up your personal information to receive money or other benefits.

Be on the lookout for:

- Fake CDC Emails
- Phishing Emails
- Counterfeit Treatments or Equipment

By using the following tips, you can protect yourself and help stop criminal activity:

- Do not open attachments or click links within emails from senders you don't recognize.
- Do not provide your username, password, date of birth, social security number, financial data, or other personal information.
- Always verify the web address of legitimate websites and manually type in your browser.
- Check for misspellings or wrong domains within a link (for example, an address that should end in ".gov" ends in ".com" instead).
